Item C. End of summer event

The discussion on what kind of an event could be put in place for the end of the summer posed several questions.

1. How do we bridge the gap between businesses and the Arts?
Debra brought up the idea that businesses open their doors the students from the local schools. Stating that there is a link between the Arts and business (like design), and that the students would find out more about Sand City by touring these businesses.
 2. Brian felt we should wait for a year and recoup services. In three or four months the Committee could look at an event for next year.
 3. Debra questions how we could spruce up the City now in the short term.
 4. The idea was raised to sponsor a mixer with the Chamber of Commerce of Seaside and Sand City to discuss how the Arts Committee could work with the business to promote the Arts in Sand City. Todd and Debra would contact Jackie Lambert to see if there is an interest in this event.
